Comments: Bring back professional librarians. They are an integral part of a school community and provide instructional support and expertise that is often otherwise overlooked. Additionally, professional librarians are the best curators of library collections, which often represent a sizeable investment and must be maintained on a regular basis to insure intellectual freedom, prevent losses and damage and provide updated and high quality resources. The role of librarians is a complex one and should not be filled by parent volunteers or teachers' aides.

- Current Year Funding
- Human Capital (Teachers)

Comments:

I am concerned about changing the formula to "Current Year Funding," as I believe this will hinder Districts' ability to budget.

As a teacher, I am tired of being asked, "Do you want a raise or smaller classes?" I want both! Please fully fund public education.
